March 2010

Dear Family,

You never know how a new inspector will evaluate your ministry. Will this inspector appreciate the spiritual aspects of your program? Can you rely on the regulations to be applied in a consistent manner? Will past agreements be honored? These are just some of the reasons the WCCH Board and Staff have been praying for fairness and consistency as we approached this year's annual inspections. And now, I'm happy to report that... last week... we had a fair and encouraging inspection.

Now, it's not any secret that I'm proud of the ministry of the Woodburn Christian Children's Home. We want to give a good example to our supporters... our churches... and to the community around us. But it is also my intention that those who inspect us should be proud of the program that they examine.

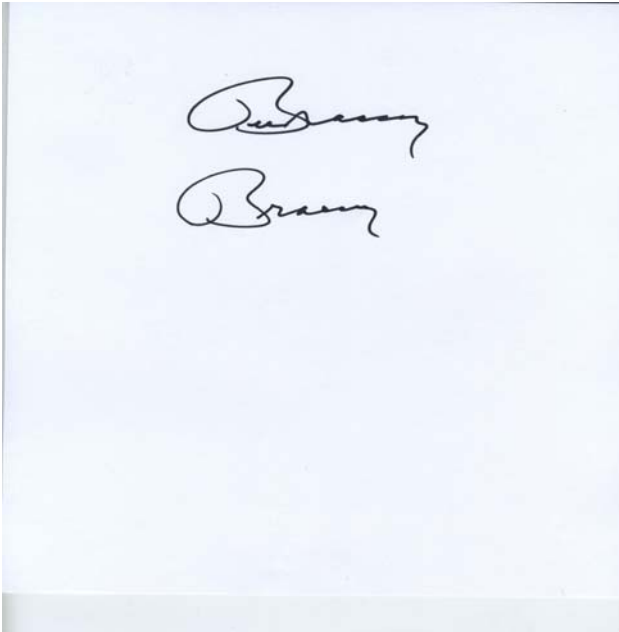

I'd like to remind you of some of the reasons I'm so proud of this ministry:

- I'm proud to be a part of the Woodburn Christian Children's Home because it fulfills a mission that is central to the heart of Christian ministry. (James 1:27 "Religion that God our Father accepts as pure and faultless is this: to look after orphans and widows in their distress and to keep oneself from being polluted by the world.")
- I'm proud to be a part of the Woodburn Christian Children's Home because it provides a home for children who have little or no ability to pay and it does so without government money.
- I'm proud to be a part of a ministry that earns good marks from inspections conducted by various Indiana State Licensing Agencies.
- I'm proud to work with board members and staff members who are committed to work together in harmony for the cause of Christ.

Please join me in thanking God for answering our prayers for a favorable inspection.

If you made a contribution in February, your receipt is enclosed. We recognize that these are challenging times and we thank you for your faithful support. We are partners together in a vital ministry. Without your help, it could not be done.

God bless,

Lee Bracey
Executive Director
